marks in prose, \$3 per square; in poetry,  
\$6 per line.

Business advertisements at Reduced  
Rates.

AUTHORIZED AGENTS FOR THE CITIZEN:  
W. N. Kelly, publisher at Prescott, has  
been authorized to sell for money due us  
to the W. N. Kelly, Sole Agent, Room 10,  
San Francisco, Cal., 325 Montgomery  
Street, San Francisco.

James A. Brown, Phoenix.  
Dr. J. H. Pierson, Wickenburg.  
John E. Levy, Las Cruces.  
Frank C. Marshall, McMillen's Camp.  
G. A. Swamy, Globe City.  
CLUM & BROWN, Proprietors.

J. C. HANDY, M. D.  
Office on Congress Street, Tucson.

W. EARL, F. STANFORD.  
STANFORD & EARL,  
ATTORNEYS at Law, Tucson, Arizona.

JOHN ROMAN,  
ATTORNEY at Law, TUCSON, ARIZONA,  
will practice in all the courts  
of the Territory. Ju20-d&wt

M. KELLEHER,  
CIVIL ENGINEER, U. S. DEPUTY  
Mineral Surveyor, Address Tucson or  
Tombstone, Arizona.

BENJAMIN MORGAN,  
ATTORNEY and Counselor at Law,  
Office corner of Main and Poinsett  
streets, Tucson, Arizona. Tel. 34 & 44

THEODORE L. STILES,  
ATTORNEY and Counselor at Law and  
Notary Public, Tucson, Arizona.  
Office on Congress street, opposite Post  
office.

FARLEY & POMROY,  
ATTORNEYS and Counselors at Law,  
Tucson, Arizona. Notaries Public,  
San United States District Attorney,  
Office on Washington street.

W. S. EDWARDS,  
Civil Engineer and Surveyor, United  
States Deputy Mineral Surveyor, Tucson,  
Arizona. Special attention given to  
surveying for the Desert Land Act and  
claiming rights to mining property.

H. B. LIGHTHIZER,  
(Formerly of St. Louis)  
ATTORNEY at Law, will practice in all  
the courts of the Territory. Office on  
Congress street, Tucson, Arizona.

L. A. ZIMMER, H. H. BERKEFOID,  
HEREFORD & ZIMMER,  
ATTORNEYS and Counselors at Law  
A. J. Adams, Publisher of the Arizona  
Citizen, Tucson, Arizona.

JOSEPH NEUGASS,  
ATTORNEY at Law, J. U. S. JUDGE OF  
the Peace. All business transacted  
promptly and at low cost. Special attention  
paid to conveyancing and collections.

DENTIST.  
T. S. HITCHCOCK, M. D. S.  
Has permanently located in Tucson for  
the practice of Dentistry in all its branches.  
His office is on the corner of Congress  
street, opposite the Postoffice.

W. STUBBS, L. H. LUCAS, J. HAYNES  
HAYNES, LUCAS & STREET,  
ATTORNEYS at Law, Tucson, Arizona.  
Office on Congress street.

G. HILL HOWARD,  
(Formerly of V. E. Howard & Sons)  
ATTORNEY and Counselor at Law,  
Tucson, Arizona. Special attention  
given to Mexican and American land  
and mining titles. Ju20-d&wt

RAMON GUERRERO, M. D.  
PHYSICIAN and SURGEON, OFFICE  
Camp street, near Palace Hotel. Resi-  
dence 401 North Congress Street. Special  
attention given to all cases of  
Scurvy, and from 4 to 5 p. m. Ju20-d&wt

WILLIAM J. OSBORN,  
ATTORNEY at Law, Notary Public and  
Commissioner of Mining and Fre-  
quency claims, and also title to land  
under the Desert and Timber claim  
laws. Office north side of Congress  
street, Tucson, Arizona.

THOS. FITCH, CLARK CHURCHILL,  
FITCH & CHURCHILL,  
ATTORNEYS and Counselors at Law,  
A. Prescott, Arizona. Will practice in  
all the courts of the Territory. Special  
attention given to cases in the Supreme  
Court, to mining law and the perfection  
of titles to mines and lands. Office in  
the Bank of Arizona Building, upstairs.

U. S. DEPUTY MINERAL SURVEYOR and  
Civil Engineer, Tucson, Arizona.  
Office corner Congress Street and Church  
Plaza, with B. P. Thurmond. Is prepared  
to do any work in his line with prompt-  
ness and dispatch. Making Topographi-  
cal Maps and Sectional drawing of mines  
& localities.

Commission Merchants.

Maricopa, Maricopa Wells  
and Casa Grande.

Take pleasure in announcing to the  
public that they have opened at Maricopa,  
Maricopa Wells and Casa Grande  
houses for the transaction of a general  
forwarding and commission business and  
will always keep on hand a complete as-  
ortment of Merchandise, which they will  
offer at the lowest market prices, having  
shipped their goods direct from New  
York.

Also, will forward all goods consigned  
to them with the greatest promptness.  
Freight will be carefully stored when  
awaiting shipment and no charges made  
for handling the same. Requests to have  
goods forwarded by special trains will be  
invariably complied with.  
They are also prepared to contract for  
the delivery of all classes of freight to any  
point in the Territory.  
Special attention given to the forwarding  
of machinery, Blacksmithing and  
wheelwrighting done to order.

ship.

NOTICE IS HEREBY GIVEN THAT  
the copartnership heretofore existing  
between the undersigned, at the town of  
Charleston, under the firm name of W. B. Scott  
& Co., has this day been dissolved  
by mutual consent. The business will  
hereafter be conducted by W. B. Scott,  
who will assume all liabilities and collect  
all debts. W. B. SCOTT,  
Tucson, January 1, 1880.

## Arizona.

"How about Arizona?" queried a  
reporter of the Herald last week when  
talking the views of Mr. D. G. Croly of  
this city on the general mining pros-  
pects of the country and the support  
New York was likely to afford them.  
Mr. Croly, it may be remarked, is one  
of the best posted men in the country  
on mining matters in their financial as  
well as in their technical aspects, and  
his opinions are both entitled to and  
exert a wholesome influence upon the  
action of Eastern investors. "It is a  
wonderful region," replied Mr. Croly,  
"but as yet too far off. When the  
Southern Pacific road is built and  
when the Atchison, Topeka and Santa  
Fe runs to the Pacific on the line of  
the thirty-fifth parallel we will then  
see Arizona, Southern Utah, New  
Mexico and the regions adjacent de-  
veloped. Undoubtedly the mineral  
wealth of the country these roads will  
traverse is enormous."

These are words of good cheer for  
the Territory since they express and  
extend an opinion which is gaining  
ground every day and which mani-  
fests itself in the increased willingness  
of our capitalists to put their money  
into mining property there. These  
first investments have as yet been too  
few and too recent to have realized the  
profits they certainly will, and until  
we have a dozen or more Arizona  
mines paying monthly dividends capi-  
tal will remain quiet and new companies  
will have to fight hard for recognition.  
This is all the better of course for  
those who have faith enough to go in  
now. Both shares and properties will  
have doubled and quadrupled in value  
within a year's time and then pur-  
chasers will regret that they did not  
go in a year earlier.

It must be admitted that Arizona is  
a pretty far off country as Mr. Croly  
says, at this moment. An all rail  
journey of 4000 miles for a man or a  
stamp mill is both expensive and ted-  
ious, and requires large inducements to  
make it tolerable; but this is an evil  
that is being rapidly remedied. The  
new trunk lines are pushing ahead so  
vigorously that it may be said that  
every day brings Arizona an hour  
nearer to New York. The recent con-  
solidation of the interests of the long  
dormant Atlantic and Pacific Railroad  
with those of the energetic Atchison,  
Topeka and Santa Fe Company, in-  
sures a direct line from New York to  
the Pacific through Northern Arizona,  
passing probably between Prescott and  
the Big Canyon of the Colorado, and  
crossing the Colorado River in the  
vicinity of Fort Mohave. This will  
bring all that section of the Territory  
within six days' journey of New York  
and cut 1500 miles off the long round  
now necessary.

The Utah Southern railroad connect-  
ing with the Union Pacific will inter-  
sect this line on the borders of Mohave  
county and will furnish the owners of  
the rich mining properties in that sec-  
tion the choice of two railway routes  
in addition to the steamboat lines that  
now run up the Colorado to Hardey-  
ville. Southeastern Arizona will be  
provided with all the railroad accom-  
modation she can possibly desire by  
the Southern Pacific, east and west  
from Yuma to El Paso, by the Sonora  
railroad from Tucson and Tubac to  
Guaymas on the Gulf, and by the  
branch of the Atchison, Topeka and  
Santa Fe connecting Tucson with San-  
ta Fe. All these lines are being ac-  
tively built and the completion of at  
least one of them within the next year  
is a matter of certainty.

The completion of any one of these  
numerous links between Arizona and  
the east will be speedily followed up by  
a gigantic advance in the fortunes of the  
Territory. Give Arizona only half the  
number of stamp mills now work-  
ing in the Black Hills of Dakota and  
she will pour out a stream of gold and  
silver that will astonish the world by  
its abundance and magnitude.

Arizona Bullion Yield.

The Los Angeles Commercial says:  
Not less than five millions of dollars  
were sent out during the past twelve  
months from Arizona and ten millions  
will be a low estimate for the next  
year's production. This great activity  
is being felt in all the channels of  
trade; rolling mills, foundries and ma-  
chine shops are filled with active  
workmen, merchants are increasing  
their business, farmers, gardeners and  
orchardists are receiving increasing  
pay for their products and idle capital  
is finding profitable employment. And  
upon this the Arizona Silver Belt  
says: "The Commercial struck the nail  
on the head, and not overestimated the  
capabilities of Arizona mines."

The Southern Pacific.

CASA GRANDE, January 18.—Conduc-  
tors on the Southern Pacific Railroad  
who had charge of construction thro'  
Arizona previous to the road making  
its terminus at Casa Grande have been  
ordered to take charge of construction  
on eastward. Supplies, horses, carts,  
etc., are moving forward every day. A  
force of 500 men will arrive at Casa  
Grande on or before Wednesday, the  
21st inst., and in all probability res-  
umption of the railroad to Tucson  
will be continued in a few days.

The Mesilla News says Gen. Hatch  
has returned to Santa Fe. He appears  
to be quite out of patience with the  
course of events in the Ute country.  
He thinks the Utes need a riddling.

THE new town on the Gila, is prob-  
ably a namesake of Senator Mackey,  
of Texas.

TEN thousand five hundred acres of  
the San Jacinto rancho will be sold at  
Sheriff's sale at San Diego on the 5th  
of February.

## Phenix Items.

[From the Examiner.]  
Louis Gezelle left on Wednesday for  
Tucson to receive the money for his  
copper mine.

The organization of the Republi-  
cans in this county is progressing rap-  
idly. At least funds are being collect-  
ed and contributed liberally for print-  
ing.

We hear of some very rich mines  
having been discovered near Casa  
Grande. Samples of ore which we  
have been shown are very rich in gold  
and silver. The ore assays \$73 in gold  
and \$156 in silver.

The First Presbyterian Church of  
Phenix has become a corporate body  
by the election of F. A. Shaw, J. E.  
Wharton, A. D. Lemen, Hosea G.  
Greenhaw and Wm. A. Hancock as its  
board of trustees.

A prospecting quartz mill of three  
tons daily capacity will arrive in Pe-  
nix in a few days for Al Wornell, who  
tells us that he will set it up on the  
Warrior mine, in Pimosee district,  
which Mr. W. says is one of the best  
gold ledges in the Territory.

Phenix is to have a new hall for the  
use of the First Presbyterian Church,  
Library Association, Ladies' Literary  
Society and other meetings that will  
promote the moral and intellectual ad-  
vancement of the community.

Concerning the escape of Powell  
the Examiner says: Mr. Speedy was in  
Phenix two days ago and said that his  
prisoner went to New Mexico. What  
a farce it is to see a sheriff's officer  
guarding a prisoner convicted of a man  
slaughter, traveling all over the Terri-  
tory without exercising the slightest  
restraint or surveillance over his pris-  
oner. If the prisoner could be trusted  
to be left alone, why the expensive  
ceremony of a guard?

While in Prescott we met Mr. Col-  
lins, a merchant of Cedar Valley, Mo-  
have county who informed us that  
both the mills in Signal were running  
and doing well; and that the five stamp  
mills at Cedar Valley were shut down,  
and all the force put to opening up the  
mine. Mr. Collins reports the prosper-  
ity for Mineral Park, Signal and Cedar  
as unusually good.

New Mexico Items.  
[From the Herald, Jan. 17.]  
About \$1200 in gold from Pinos  
Alto, during the past week.

N. Cohen shipped about 30,000  
pounds of copper last Thursday.

Chapman's train moved out last  
Wednesday loaded with 25,000 pounds  
of copper.

The new paper at Shikaree will  
probably make its appearance early in  
February.

The Silver City postoffice is soon to  
be raised to third class, with regular  
salary attached.

The Massachusetts and New Mexico  
mining company have loaded about  
30,000 pounds of machinery and sup-  
plies, during the week.

Richard Hudson has received the  
appointment of Major of the new mil-  
itia regiment which Governor Wallace  
proposes to organize.

Not a house or room for rent in Sil-  
ver City. The town is literally cov-  
ered with new comers, the majority of  
whom have come to stay.

Major Perry, with one hundred men  
of the Sixth Cavalry and San Carlos  
scouts, passed through to Fort Bayard  
last Tuesday. Lieutenants Craig, Tou-  
ney and Blockson were with the com-  
mand, which has doubtless ere this ef-  
fected a recon with Major Morrow  
and J. G. Mahany, who returned from  
the San Simon district, Grant county,  
last Tuesday informs us that there are  
now at work sixteen men. Sixty six  
locations have been made and B. L.  
Duncan has been chosen district Re-  
corder. The ore occurs principally in  
porphyry, white and blue limestone  
and trachite; in some instances it is  
found in granite and trap. Most of  
the shafts are down ten or twelve feet.

THE Phenix Herald says: "Leo  
Goldman is here on a visit from Picket  
Post. He reports a continued improve-  
ment in that section and speaks for it  
a bright future. The 78 quartz mill  
has started up and in fact a general  
sign of prosperity is noticed on every  
hand."

THE Wm. C. DAVIS mine, according  
to the report of Mr. M. T. Brown, is a  
bonanza. The cross-cut is thirty-nine  
feet in ore and the shaft is twenty-eight  
feet in ore and all good ore, too. As a  
prospect this seems to be chief of the  
district.

ADVISED from Guaymas say that real  
estate has considerably advanced in  
that city and that the news of the con-  
firmation of the charter for the Sonora  
railroad by the Mexican Government  
was celebrated by a grand ball and  
supper.

A COTEMPORARY SAYS Eve is as dis-  
serving of a monument as Adam, and  
he urges "give them a monument  
apiece." But why not treat them as  
this country has George Washington  
— give them a piece of monument?

FULL many a rose is born to blush  
unseen and waste its fragrance on the  
desert air; full many a nip is taken  
behind the screen, and cloves and  
daffodils, are eaten there.—[Ontario  
County Journal.]

MARK ANTONY squandered \$725,000.  
000 of the public treasury in two  
years, and the Detroit Free Press man-  
wants to be appointed a committee to  
investigate his accounts.

THE Khedive of Egypt plays foot  
ball. At least we are led to suppose  
from a head line in the St. Louis Globe  
Democrat, which says "The Khedive  
Kicks."

THE weather could not be more de-  
lightful than it has been for several  
days past. The new moon is again  
bringing our nights up to their max-  
imum of grandeur.

BOSS RYLAND again has his circuits in  
full blast at Prescott.

## GILA HITS.

Pleasant Lines From the Pueblo Viejo  
Valley.

A Herald correspondent gives the  
following notes from the section of  
the Gila valley in the vicinity of the  
thriving town of Safford which are  
very encouraging to the agricultural  
interests of our Territory. The writer  
says: "All frontier communities have  
their dark and their bright days. There  
are times when hope is spread over the  
bright horizon of the future and also  
times when disappointment and mis-  
fortune crowd every prospect and  
crush the hopes of the frontier men.  
The Gila valley, or Pueblo Viejo  
Valley, was settled seven years ago. It was  
surrounded by hostile savages and cut  
off from other settlements by great  
plains and deserts. Now ten thousand  
acres of land are under cultivation and  
are irrigated from the rapidly flow-  
ing river that passes through it. Wheat,  
barley, beans, onions, alfalfa,  
pumpkins and even potatoes are now  
produced in abundance. In extent of  
farming lands and in the abundance  
of water it is surpassed in this Terri-  
tory, by the Salt river valley only.  
Safford lies 22 miles above Camp  
Thomas. It contains one flouring mill,  
store, hotel, saloon, blacksmith shop  
and schoolhouse. Mrs. Johnson, a  
lady from Mississippi, is teaching an  
excellent school here. Mines have  
been discovered here on the southern  
slope of the White mountain, ten miles  
north of Safford, in Apache county. A  
mining district called the Lone Star  
was recently organized there. With  
agricultural, mineral and pastoral re-  
sources and with mountains covered  
with timber and abounding in flowing  
water, it requires no prophetic vision  
to predict the bright future of this  
county."

OSCE more we are called upon to  
chronicle the revival of work at the  
old Vulture mill, near Wickenburg.  
Mr. Wm. E. Smith, of San Francisco,  
is just commencing the concentrating  
of tailings, for the purpose of ship-  
ment to San Francisco, which it is  
thought will yield a handsome profit.  
Reports from central Arizona are quite  
encouraging; the mill at Seymour is  
reported as crushing 47 tons per day,  
being an increase of 15 tons per day  
over former work. Roughly as-  
sorted rock from which a large amount  
of gold is obtained is also being work-  
ed up. The company propose to dis-  
pose of the transportation of ore from  
the mine to the mill by erecting at  
an early date an eighty stamp mill  
at the mine, and forcing water from  
the Hassayampa to the mill. The es-  
timated cost of reduction of unsorted  
ore, of which there is an immense  
quantity in sight, will be nominal,  
perhaps about \$1.80 per ton. The  
transportation problem being solved  
and with the self ore feeders one man  
can attend eighty stamps instead of  
two to each twenty as at present. This  
will enable the old Vulture to rival if  
not surpass its palmy days, and add  
to the revenue and general prosperity  
of that section of the Territory.—[Sci-  
entist.]

MR. M. T. BROWN returned from  
Patagonia Tuesday evening, and re-  
ports things booming in that camp. On  
Monday about ten tons were sold in the  
new town of Harshaw, and numerous  
transfers of real estate are daily made.  
Work on the Hermosa is progressing  
nicely, as are also the preparations at  
the mill site.

THE Phenix Herald says: "Leo  
Goldman is here on a visit from Picket  
Post. He reports a continued improve-  
ment in that section and speaks for it  
a bright future. The 78 quartz mill  
has started up and in fact a general  
sign of prosperity is noticed on every  
hand."

THE Wm. C. DAVIS mine, according  
to the report of Mr. M. T. Brown, is a  
bonanza. The cross-cut is thirty-nine  
feet in ore and the shaft is twenty-eight  
feet in ore and all good ore, too. As a  
prospect this seems to be chief of the  
district.

ADVISED from Guaymas say that real  
estate has considerably advanced in  
that city and that the news of the con-  
firmation of the charter for the Sonora  
railroad by the Mexican Government  
was celebrated by a grand ball and  
supper.

A COTEMPORARY SAYS Eve is as dis-  
serving of a monument as Adam, and  
he urges "give them a monument  
apiece." But why not treat them as  
this country has George Washington  
— give them a piece of monument?

FULL many a rose is born to blush  
unseen and waste its fragrance on the  
desert air; full many a nip is taken  
behind the screen, and cloves and  
daffodils, are eaten there.—[Ontario  
County Journal.]

MARK ANTONY squandered \$725,000.  
000 of the public treasury in two  
years, and the Detroit Free Press man-  
wants to be appointed a committee to  
investigate his accounts.

THE Khedive of Egypt plays foot  
ball. At least we are led to suppose  
from a head line in the St. Louis Globe  
Democrat, which says "The Khedive  
Kicks."

THE weather could not be more de-  
lightful than it has been for several  
days past. The new moon is again  
bringing our nights up to their max-  
imum of grandeur.

BOSS RYLAND again has his circuits in  
full blast at Prescott.

## SHAKESPEARE.

Busy B's—Rich Strikes, Mining Sales,  
Etc., Etc.

A correspondent to the Silver City  
Herald says Shakespeare at present  
numbers about one hundred souls, the  
majority of whom are at work, and  
we can divine no cause for the idleness  
of any after the 15th of this  
month, when the bids for contract in  
the sinking of shafts on the property  
of the Shakespeare Gold and Silver  
Mining Company will have been  
opened and the labor awarded. Work  
will then be prosecuted rapidly to a  
depth that will establish the perma-  
nency of these lodes.

Quite a stir has arisen lately in that  
section of Virginia District known as  
Leitendorf's Wells, owing to the quan-  
tity and quality of some of the claims  
lately opened in that camp. These  
wells are situated in a southwesterly  
direction from the town of Shakespeare,  
and the richness of that portion of  
Grant County has heretofore been little  
known to the prospector. But a few  
months since Messrs. McKane and  
Warrington, of Silver City, and Even-  
son and Fitzgerald, of this place, while  
on a prospecting tour in that vicinity  
discovered rich "float," and searching  
for the lead from which the same  
might have come found the "Henri-  
etta," "Viola," "Hard Game," "Golden
